

Directions:

Ammos hotel is located 4 km west of the centre of Chania (towards the city of Kissamos a.k.a Kasteli). From the centre of Chania you take the old national road to go to Agii Apostoli and Glaros beach - this road passes in front of the municipal market (on your right hand). It is a busy road and most of the cars will drive in the same direction as you - going west.

At a 2 km distance from the centre you will pass a "Cyclon" petrol station on your right hand side. After approximately 3 km at a traffic light you come to you will see a big corner "INKA" supermarket on your right hand side. About 300 meters on, you see a "VW & Audi" car dealership and 300 meters after that "Penny" Mini-Market (both on your right hand side). Pass the first street to your right and take the second small street to your right (this is between a corner supermarket and a yellowish hotel called "Yakinthos"). Follow this small street down towards the sea and there we are!

Alternatively, if you come from the New National Road (from Heraklion or Rethymno) and you don't want to come through the centre of Chania, you go past the first exit (Chania-Souda), continue past the second exit (Chania-Mournies-General Hospital) and take a right turn at the third exit (Chania-Omalos). Then, take the first right (following the sign marked for "Chania 4km"), you drive straight and at the end of that road (first time you see traffic lights), you turn left (while you turn you see the petrol station "Cyclon" in the corner). From that point on ammos hotel is approximately 3 km away and you must find the INKA supermarket and all the other signs described before.

GPS coordinates: 35.511127 Latitude, 23.975247 Longitude.
